

# Services for Young Children

## Information sessions about childminder agencies

---

4Children is pleased to be hosting a series of free information sessions about childminder agencies. If you are interested in finding out more, including how to set one up, we invite you to attend one of our events.

Childminder agencies were implemented by the DfE in 2014 as a way to improve childcare for Britain's families. Childminder agencies are organisations that register childminders and provide them with training, advice, administrative support and marketing to families. Any organisation that is committed to providing parents and children with high quality childcare experience can apply to be registered by Ofsted as a childminder agency.

### Who should attend?

Anyone interested in providing high quality, flexible childcare. Current childminder agencies consist of nurseries, childminders, local authorities, and schools.

### Aim of the session:

- Offer support to those considering setting up as an agency, either now or in the future
- Share experiences and best practices of existing childminder agencies
- Access to the most up-to-date information on childminder agencies
- Networking with like-minded people

### Date, time & location:
