

## Services for Young Children

Additional financial support for children to attend Early Years Education (EYE) provision

---

Services for Young Children manage a SEN budget, designed to support EYE funded pre-school children who have complex and severe special educational needs, in their early years setting. The funding is intended as a contribution towards providing additional resources and support for the child.

More guidance on this fund, including eligibility criteria, levels of support, how the funding might be spent plus a link to the SEN funding application form can be found on our website at: [www.hants.gov.uk/childrens-services/inclusion/area-inco-support/proformas.htm](http://www.hants.gov.uk/childrens-services/inclusion/area-inco-support/proformas.htm) under the 'Additional Funding' tab.

If you are an EYE provider and you are unfamiliar with the procedure please contact your Area Inclusion Coordinator (Area InCo) or Portage Home Visitor for further advice. All referrals should be discussed and supported by the Area InCo or the Portage Home Visitor prior to application.
