30 Hours Free Childcare Parental Demand Survey

Hampshire County Council is undertaking a parental survey to understand the future demand for 30 hours free childcare.

We would very much like to hear the views and experiences of parents/carers to help shape the delivery of the extended childcare offer for September 2017. We would welcome understanding, particularly, the views from parents/carers of children with additional needs (including special educational needs or disability).

Please could you help raise awareness amongst your families and ask them to complete the short online survey e.g. through your discussions with parents, noticeboards, newsletters, websites, social media, open days, etc. in order that as many families can share their views and experiences and are part of the future planning and delivery of the extended child care offer.

In return we will share with you the results of the survey and have further provider discussions in autumn 2016 to support readiness for September 2017.

The 30 hours free childcare Parental Demand Survey can be found here:

<http://consultations.hants.gov.uk/consultationdetails.aspx?consultationid=1718>

The consultation closes on **Thursday 30 June 2016**.

Thank you for your support.
